

INTRODUCTION TO DIGITAL MARKETING

Lecture Objectives

- **Understand what is digital marketing**
- **Getting clear on your ideal customer**
- **Understanding the value you bring to the marketplace**
- **Learning to take a prospect from awareness to raving fan**

Some key facts on digital marketing

- In 2023, global digital ad spending was \$333 billion, which was more than traditional ad spending of \$316 billion (increased to 770 billion in 2025)
- The largest annual increase in digital ad spending from 2017 to 2024 was in 2021, when it increased by 31.2%
- Organic search is the most popular form of digital media, accounting for 53% of all online traffic.
- Mobile advertising will account for 60-70% all digital ad spending this year.
- Email campaigns have an average return on investment (ROI) of \$36-40 for every dollar spent.
- Video content is growing faster than any other type of online content, with 87% of marketers using video content in their campaigns.
- Digital marketing campaigns can be tracked, measured, and optimized at any time, allowing marketers to adjust strategies as needed.

SOURCES OF BRAND DISCOVERY

PERCENTAGE OF **INTERNET USERS AGED 16+** WHO DISCOVER NEW BRANDS, PRODUCTS, AND SERVICES VIA EACH CHANNEL OR MEDIUM

Generation	Main Channels	Behavioral Features
Alpha	Social media, mobile apps	Follow brands, search for products and inspiration
Z	Social media, video content, online ads	Trust friends, engage with interactive content
Y (Millennials)	Search engines, social media, expert content	Value authenticity, trust influencers and reviews
X	Search engines, TV, offline promotions	Value personal experience, respond to promotions and printed catalogs
Baby Boomers	TV, print ads, direct mail	Trust traditional media and personal recommendations

Digital marketing Vs internet Marketing

Digital marketing is a broad term that includes internet marketing, but it also includes offline marketing. Internet marketing is a type of digital marketing that uses the internet to reach an audience.

Digital marketing

- A broad term that includes online and offline marketing strategies
- Uses digital channels like social media, email, and TV ads to promote products and services
- Also includes managing customer data and electronic customer relationship management systems (E-CRM)

Internet marketing

- A subset of digital marketing that uses the internet to reach an audience
- Also known as online marketing
- Requires an internet connection to work
- Includes strategies like social media, SEO, email, pop-ups, and banner ads

7 D's of Digital Marketing

Table 1.1 The 5S goals of digital marketing

Benefit of digital marketing	How benefit is delivered	Examples of typical objectives
Sell – grow sales	Includes direct online sales transactions and sales from offline channels influenced online	Achieve 10 per cent of sales online Increase online sales in product category by 20 per cent in one year
Speak – get closer to customers	Encourage interaction online using inbound marketing techniques such as search and social media marketing, and understand audience needs	Increase website visits or social media page followers by 10 per cent within one year
Serve – add value	Provide content and offers to encourage interactions leading to sales	Increase subscribers to newsletter by 10 per cent within quarter
Save – save costs	Reduce offline media spend and customer service through using organic inbound marketing techniques Reduce customer support costs by ‘web self-service’ where customers answer queries online	Reduce cost of customer acquisition by 10 per cent Reduce cost-to-serve per customer by 10 per cent
Sizzle – extend the brand online	Improve the customer experience by offering new digital value propositions, exclusive online offers and customer communities	Improve brand metrics such as brand awareness, brand familiarity, favourability and purchase intent

The RACE omnichannel marketing planning framework summarizing aims, activities and measures

CUSTOMER JOURNEY MAP PLANNING

Understanding the Customer Journey

- Think about the **last important purchase you made**. Perhaps you bought a car, or switched coffee, suppliers at your office.
- Chances are, **you consulted the Internet to read reviews**, get recommendations from friends and family on social sites like Facebook, and boned up on the features, options, and price of the product or service before you made your choice.
- Today, purchases and **purchasing decisions are increasingly made online**. Therefore, regardless of what you sell, an online presence is necessary to capitalize on this trend.
- This new **digital landscape is impacting organizations** in more than just the lead and sales generation departments, though.
- Savvy companies **use the Internet to drive awareness and interest in what they offer**, but also to convert casual buyers into brand advocates who buy more and encourage members of their network to do the same.
- In many ways, nothing in marketing has changed. **Marketing is still about developing a mutually beneficial relationship** with prospects, leads, and customers.
- The **development of this relationship is called the customer journey**. In this chapter, we learn to create a customer journey for your organization and the role digital marketing plays in that journey.

Types of Digital Marketing

Mini case study 1.1

Burger King® Brazil makes creative use of augmented reality (AR) by 'flaming its competitors' ads'

Burger King's® 'Burn that ad' campaign

Source: The BURGER KING® and Whopper® trademarks and images are used with permission from Burger King Corporation. All rights reserved

The communications aim of the campaign was to drive people to download the BK app, use the AR feature in the real world and insist on Burger King flame grilling iconic taste. With the motto *'After all, flame grilled is always better'*, digital interactions were encouraged through a feature in the Burger King app. It integrated a feature in its app that allowed users to scan any ad of the competition and burn it in the virtual world using augmented reality.

Conversion to sale was encouraged since users of the feature could get a free Whopper®, encouraging trial and future purchases. Longer-term engagement was encouraged by use of a mobile app, BK Express, specifically developed in Brazil enabling any customer to pre-order and avoid queues. The campaign aim was to achieve hundreds of thousands of app downloads and online voucher redemptions.

Creating a Customer Avatar

- A *customer avatar* is the fictional, generalized representation of your ideal customer.
- Realistically, unless your product or service fits within a narrow niche, you will have multiple customer avatars for each campaign.
- People are so much more than their age, gender, ethnicity, religious background, profession, and so on.
- People don't fit neatly into boxes, which is why broad, generic marketing campaigns generally don't convert well; they don't resonate with your audience.
- It is absolutely crucial that you understand and make your customer avatar as specific as possible so that you can craft personalized content, offers, and marketing campaigns that interest members of your audience or solve their problems.
- In fact, the exercise of creating a customer avatar impacts virtually every aspect of your marketing, including:

What to include in your customer avatar

The customer avatar possesses five major components:

- **Goals and values:** Determine what the avatar is trying to achieve. What values does he or she hold dear?
- **Sources of information:** Figure out what books, magazines, blogs, news stations, and other resources the avatar references for information.
- **Demographics:** Establish the age, gender, marital status, ethnicity, income, employment status, nationality, and political preference of the avatar.
- **Challenges and pain points:** What is holding the avatar back from achieving his or her goals?
- **Objections:** Why would the avatar choose not to buy your product or service?

- In some cases, **you need to survey or have conversations with existing customers** to accurately flesh out your customer avatar.
- In other cases, you may already be **intimately familiar with the characteristics** of your ideal customer.
- In any case, **move forward**. Don't wait for surveys or interviews to be conducted to create your first draft of an avatar.
- Instead, **go ahead and make assumptions despite having no data or feedback**, and put completing your research on your short list of todo's.
- In the meantime, you can **begin benefiting from the avatar you've created**.

Introducing Agency Eric: A customer avatar example

Class activity

- Develop customer avatars for three technology products:
 1. A gaming console
 2. Electric bikes
 3. VR glasses.

Getting Clear on the Value You Provide

- An important part of planning for digital marketing success is **understanding the value your organization brings to the marketplace.**
- The **value your company provides is far greater** than the products or services it sells. In fact, people don't buy products or services at all; instead, **they buy outcomes.**
- Imagine a **group of people who are discontent** for one reason or another.
- This group of people are in what we call the **“Before” state** (see Figure 1-5).
- To gain some insight, **write the adjectives that describe your prospective customer** before she has experienced your product or service. Is she **sad? Out of shape? Bored?**

FIGURE 1-5:
Businesses
provide value by
moving prospects
from a “Before”
state to an “After”
state.

- After your **prospective customer has experienced your product or service.**
- What is her “**After**” state? How has this person changed? In the same place where you took notes about her Before state, describe her After state. Is she **happier? Healthier? More excited?**
- The shift from the **Before state to the After state is what your customer is buying.**
- This shift (or outcome) is the **value that your business brings to the marketplace.**
- Furthermore, the **role of your marketing is to articulate this move from the Before state to the After state.**
- The understanding of this transition from Before to After is what allows you to **craft what is called a Statement of Value.**
- This statement is important because **it sums up the value of your product or service.**

FIGURE 1-6:
Fill in the blanks
on your
Statement of
Value.

STATEMENT OF VALUE

(Product Name) enables

Knowing the Stages of the Customer Journey

- If your business has **acquired even a single customer**, some kind of customer journey is in place.
- You call it something else in your organization, such as a “**marketing (or sales) pipeline.**”
- Becoming intentional about the **movement of cold prospects, leads, and existing customers through the stages** of this journey is the purpose of your marketing.
- When you’ve **properly charted your ideal customer journey**, you quickly **find the bottlenecks that are restricting** the flow of prospect to lead, lead to customer, and customer to raving fan.

Step 1: Generating awareness

- **Every repeat customer and raving fan of your business was, at one time,** a complete stranger to your company. She had no idea what problem you solve, what products you sell, or what your brand stands for. **The first step** on her journey from cold prospect to raving fan **is awareness**. We go into more detail about tactics later in this book, but if **awareness is your issue, you should employ the following digital marketing tactics:**

»»»**Advertising:** Advertising, both online and offline, is a reliable and effective method of raising awareness.

»»»**Social media marketing:** Billions of people access social media sites such as Facebook, Twitter, and LinkedIn every day. Social media marketing is an inexpensive method of raising awareness.

»»»**Search marketing:** Billions of web searches on sites such as Google and Bing are processed every day. Basic search marketing techniques direct some of that traffic to your website.

- Figure 1-7 shows an **awareness campaign from TransferWise**, a company that was created by the same people who built Skype. TransferWise is a relatively new company in the money transfer business, and it uses the Facebook advertising platform to raise awareness of the service. **Notice how the language used in this ad focuses on teaching what TransferWise is and how you benefit from using the service.**

FIGURE 1-7:

Step 2: Driving engagement

- **It's not enough to simply make a cold prospect aware of your business, products, and brand. You must engineer your marketing to capture the attention of your prospect and engage him.**
- **For a digital marketer, that engagement almost always takes the form of valuable content made freely available in the form of**

»»»Blog posts

»»»Podcasts

»»»Online videos

- For example, the **grocery store Whole Foods prides itself in selling fresh, organic foods** from its hundreds of brick-and-mortar locations. The supermarket chain's **online strategy includes its Whole Story blog, which engages its ideal customer with content relevant to the products the company sells.** Blog articles with titles such as **“9 Refreshing Summer Drinks You Need to Try Right Now”** (see Figure 1-8) show existing and prospective customers how to use the products sold at Whole Foods.

9 Refreshing Summer Drinks You Need To Try Right Now

By Kate Rowe, July 12, 2016 | [Meet the Blogger](#) | [More Posts by Kate](#)

The summer heat is now upon us, but you can stay cool with refreshing, family-friendly drinks right now. We're all about using unexpected ingredients, making juice in the blender, and finding shortcuts to delicious summer sippers.

Step 3: Building subscribers

- The next step in the customer journey is **to graduate a prospect from the “merely aware and engaged” stage into the stage of being a subscriber or lead**. A subscriber is anyone who has given you permission to have a conversation with him.
- Savvy digital marketers **create lists of subscribers by building social media connections** on sites such as Facebook and Twitter, attracting podcast subscribers, or generating subscribers from webinar registrations.
- **Offline companies might build subscription online by offering** aware and engaged prospects the ability to receive **physical mail or request a consultative sales call or product demo**. But the **Holy Grail of lead generation in the digital marketing** realm is email subscription.
- **Email is, by far, the cheapest and highest-converting method** of moving a prospect through the rest of the stages of this customer journey. We will cover more about email marketing in Chapter 11, but for now, **take a look at an example of an effective email marketing campaign from one of the world’s largest furniture retailers, IKEA**.
- IKEA builds social media subscribers on Facebook, Twitter, Pinterest, and more, but **acquiring email subscribers is clearly the focal point of IKEA’s digital marketing efforts**. Upon visiting the IKEA website, **you’re asked in multiple locations to join IKEA’s email list**. Figure 1-9 shows an email opt-in form from the IKEA website.

Step 4: Increasing conversions

- At this stage, the goal is to elevate the commitment level of the prospect by asking him or her to give you a small amount of time or money.
- **Low-dollar products or services, webinars, and product demos** are all good offers to make during this stage.
- Up to this point, the **relationship** with this prospect **through the first three stages of the customer journey has been passive**.
- The goal of Stage 4 is not profitability, but rather an **increased level of connection between the prospect and your business**.
- One company that achieves this increased connection is **GoDaddy**, which allows you to, among other things, **register a domain name for a website as well as host and design one for your business**.
- **GoDaddy uses a low-dollar domain registration offer with a two-year purchase** (see Figure 1-10) to acquire customers and ramp up the commitment level.

FIGURE 1-10:

Find Your .com

Step 5: Building excitement

- Your marketing should intentionally **encourage your customer to use the offer that your lead or customer accepted in Step 4.**
- The business term for getting your prospect to take advantage of an offer is *customer onboarding*.
- Regardless of whether the conversion in Step 4 was a commitment of time or money, the **relationship with this customer or prospect has a much greater chance of success if she received value from the transaction.**
- At DigitalMarketer, we have a community called **DigitalMarketer Lab** made up of thousands of entrepreneurs, freelancers, and small business owners.
- Each new DigitalMarketer Lab member receives an onboarding packet (see Figure 1-11) from our company through post mail that **teaches Lab members how to get the most out of their new purchase.**
- **This packet builds excitement by explaining all the benefits** of being a member, and it shows members exactly how to get started receiving those benefits.
- **By building excitement and teaching our customers to be successful, we've seen dramatically lower cancellation rates.**

FIGURE 1-11:
This onboarding packet builds excitement and teaches the customer how to be successful with our product.

Step 6: Making the core offer sale and more

- At this stage, **prospects have developed a relationship with your brand**. They may have invested a bit of time or money with you.
- People who develop this rapport with your company **are much more likely to buy a more complex, expensive, or risky product or service from you**. We call this jump from passive prospect to **buyer ascension**.
- **Unfortunately, this is where most businesses start and end their marketing**. Some ask cold prospects to make risky investments of time and money with a company they know nothing about.
- Other **brands stop marketing to a customer** after that particular customer has converted (made a purchase) **instead of staying in touch with and converting that person into a repeat buyer**.
- **In the ascension stage, customers or prospects purchase high-ticket products or services, sign up for subscriptions** that bill them monthly, or **become loyal, repeat buyers**.
- That's because **you've built a relationship with them** and effectively **communicated the value you can bring to their lives**.
- When you **market to your customers in this sequence**, they're on the path to becoming **brand advocates and promoters**.

Step 7: Developing brand advocates

- **Brand advocates give you testimonials about the fabulous experience they've had with your brand.**
- **They are fans of your company and defend your brand** on social media channels and, if asked, leave great reviews for your products or services on sites.
- **Your ability to create brand advocates depends on the relationship** you have with these leads and buyers.
- **You build this relationship by adding value**, delivering on the **promise** of your product (meaning that it actually does what you claim it will do), and with **responsive customer service**.
- By consistently delivering quality products and services, you can turn people into brand advocates and **ultimately move them into the final step: brand promoter**.

Step 8: Growing brand promoters

- **Brand promoters go beyond advocacy and do everything** from tattooing your logo across their chest (think Harley Davidson) to dedicating hours of their free time blogging and using social media to spread their love of your brand online.
- The difference between an advocate (Step 7) and a brand promoter is that the **promoter actively spreads the word about your business, whereas the advocate is more passive.**
- For brand promoters, your **company has become part of their life.**
- **Brand promoters believe in you** because your brand and your products have delivered exceptional value again and again.
- They have **committed not only their money but also their time** to you.

Preparing Your Customer Journey Road Map

- For successful businesses, the customer journey doesn't happen by accident. **Smart digital marketers engineer marketing campaigns** that intentionally move prospects, leads, and customers from one stage to the next.
- After you become aware of your ideal customer journey, **the tactics** (taught in the remaining chapters of this book) **that should be employed become clear**.
- For example, if you determine that **you have an issue building subscribers** (Step 3 of the customer journey), **you want to deploy tactics that generate email leads** (covered in Chapters 3 and 11) **and social media connections** (discussed in Chapter 9) to move customers through this part of the customer journey.
- **Creating a customer journey road map** that clearly outlines the eight stages is a fantastic way to plan and visualize the path that an ideal customer **will take from cold prospect to brand promoter**.
- Gather the stakeholders in your company and **complete a customer journey road map for at least one of your major products or services**. Brainstorm which campaigns and offers to use at each step of the customer journey **to make people aware of your product and move them from awareness to their desired “After” state** onto the path of a brand promoter.

VALUE JOURNEY WORKSHEET

DESIGNED FOR: _____ DESIGNED BY: _____ DATE: _____

The worksheet is titled "VALUE JOURNEY WORKSHEET" and includes fields for "DESIGNED FOR:", "DESIGNED BY:", and "DATE:". It features seven stages of a customer journey, each in a colored box with a grid for notes:

- ASCEND** (Purple box, top left): Icon of three mountains.
- ADVOCATE** (Dark blue box, top middle): Icon of a person with a speech bubble.
- PROMOTE** (Light green box, top right): Icon of a megaphone.
- EXCITE** (Orange box, middle): Icon of a smiling face.
- CONVERT** (Green box, middle right): Icon of a dollar sign with a circular arrow.
- ENGAGE** (Teal box, bottom middle): Icon of two people with a speech bubble.
- SUBSCRIBE** (Blue box, bottom right): Icon of a document with a checkmark.

Arrows indicate the flow of the journey: ASCEND to ADVOCATE, ADVOCATE to PROMOTE, PROMOTE to CONVERT, CONVERT to SUBSCRIBE, SUBSCRIBE to ENGAGE, ENGAGE to EXCITE, and EXCITE back to ASCEND.

Optimizing the Customer Journey

- It's good that you've documented your customer journey, but **just because you've written it down doesn't mean you're done.**
- When you understand the customer journey, and **after you've built it for your business, it's time to optimize it.**
- The **customer journey isn't something you laminate upon completion.**
- It's not something you set and forget. **If you want your business to grow — to truly be set up for success — you'll want to revisit and hone your customer journey as your business and customers evolve.**

Avoiding an Optimization Mistake

- As you begin to optimize your customer journey, your instinct may be to approach it from the beginning and start with Step 1: generating awareness. But that's not where you want to start. In fact, **the awareness stage is the last place you want to start when optimizing your customer journey.**

Why?

- If you start from the beginning — as the saying goes — you're pouring more water into a leaky bucket. All the work you're doing to optimize the beginning steps of the customer journey will be for nothing if you have holes later in the journey that are causing your customers to get stuck or not convert at all.
- To avoid this pitfall, you don't want to focus your optimization efforts on the beginning of the journey. Instead, you'll start toward the *end* of the journey.

- When optimizing your customer journey, it's best to start at the ascend stage (Step 6). Start here with the perspective of, "How do I increase the average customer value?"
- How do I remove the bottlenecks that are causing the customer to get stuck?" By plugging any holes in the ascension stage, you'll be able to maximize your profit.
- And with more profit, you'll be able to invest more into your journey (and *not* send leads and customers into a leaky bucket).
- When you've maximized the ascension stage, work backwards.

- » Optimize your excite stage (Step 5).
- » Then optimize your convert stage (Step 4).
- » Then the subscribe stage (Step 3).
- » Followed by the engage stage (Step 2).
- » And finally, 'optimize the awareness stage (Step 1).

- After you've worked backwards and optimized all of the beginning stages of the customer journey, you then turn your attention to optimizing the final two stages — brand advocates (Step 7) and brand promoters (Step 8), looking for ways to generate more of each.
